

Ownership

The CNC Shapeoko2 was on loan on a long term basis from Simon. We have since given it back as we upgraded to the [OxCNC](#)

Documentation

Most of the documentation for this CNC is currently located on github

- <http://hacmanchester.github.io/Tools.Shapeoko2/>

Induction

Richard has most of the details on how to use the CNC. Although the aim is to include as much documentation in the gitrepo on step by step guides for its use
