

Random ideas for projects

We've been brainstorming for makerfaire 2012, this page is for an idea dump

Physical Breakout

<srimech> How about real-life breakout?
<parag0n> hmm, it *would* be a good excuse to buy that air hockey table
<srimech> Oh, air hockey could work
<parag0n> each block attached to a piece of string, when a camera detects it
s been hit it gets whisked away into the sky?
<srimech> I was thinking it'd be more like pinball <parag0n> ahh
<srimech> And each block would detect being hit and retract flush with the t
able, but being lifted away could work as well
